

Art in Health care setting

1) Healing art at Singapore General Hospital:

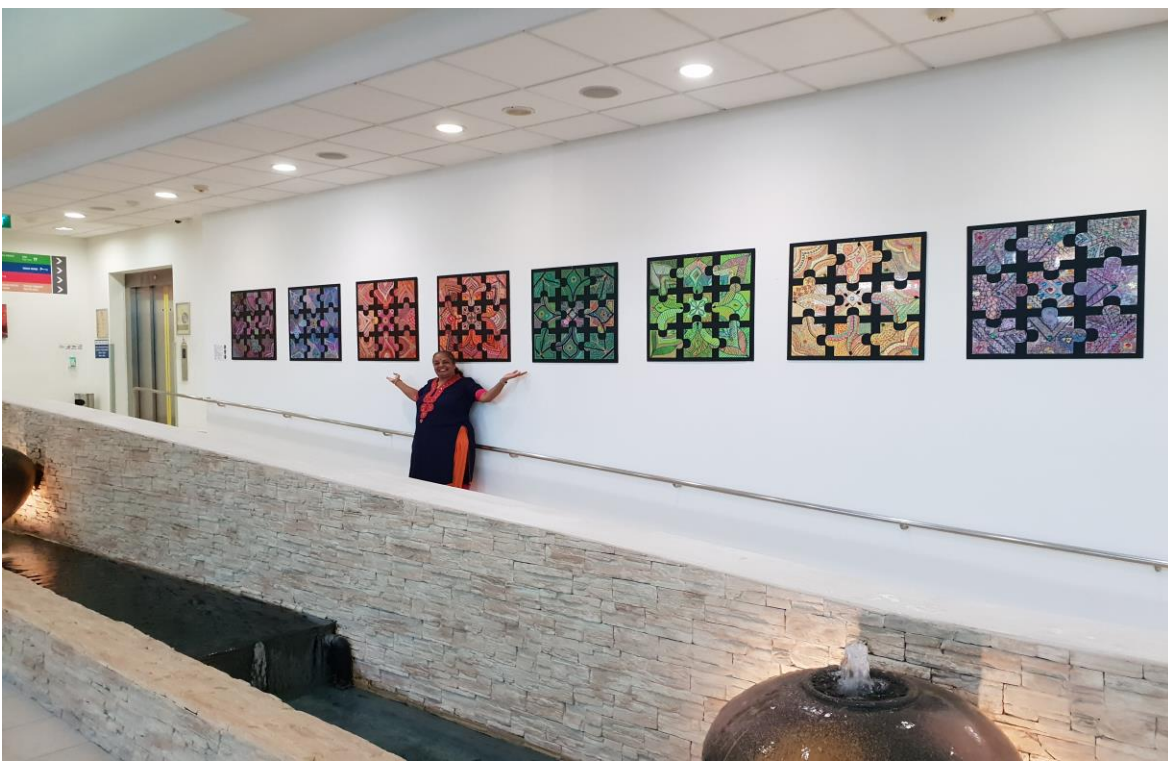

2 months project. Art works created by junior doctors, nurses, patients, and the visiting public to the hospital and helpers who are accompanying the patients for their checkups. The art works were exhibited on 70 feet wall from 2nd feb 2018 to 30th April 2018. Around 450 pieces of art works were produced.

2) Bright Vision Hospital :

A puzzle art for 6 weeks project with the patients and volunteers of Bright Vision Hospital . It's the healing art journey for them and the process helped them in regulating their emotions during their stay in the hospital.

Project Rangoli 2018

Paint markers and glitter stones on acrylic

Project Rangoli 2018 is a community project that involved 58 patients and volunteers from Bright Vision Hospital (BVH). It was completed over six workshops from 10 September to 22 October 2018.

The artwork depicts our patients' journey to recovery - the jigsaw puzzle represents their struggles of piecing back their health; the progressive change of colour from dark to cheery bright mirroring their change in mood from their stay in the hospital.

Led by visual artist Ms Vijayalakshmi Mohan, this new development reflects Singapore's spirit in creating new ideas in its creative use of paint markers and glitter stones on acrylic base instead of the traditional approach of sand and rice.

2018蓝果丽企划

亚克力板上的油漆彩石精彩碰撞

2018年蓝果丽企划是观明医院所举办于2018年9月22日至10月22日之间，由58名志愿工作者/志工、和病友们在六个创作班上所共同完成的社区计划。

这份艺术作品描绘了院内病人的复健历程 – 拼图式采用深沉暗色到亮丽颜色的转变，呈现出病友们在恢复健康时的身、心灵挣扎；反映了他们住院期间的种种情绪变化。

由视觉艺术家Vijayalakshmi Mohan所指导，这项企划特别使用油漆跟彩石等材质创新性的结合来展现出本地所提倡的创意精神，有别于以往传统蓝果丽作画所使用的砂石跟米粒材质。
